Energy Healing

Stephanie Hull

Energy Therapy Practitioner
CranioSacral I

Healing through Radiance within.

LuminEssence™

LuminEssence™ Energy Healing is a daily (Monday thru Friday) distance group healing. It is a 30 minute support practice for those who feel the need for additional healing energy. By receiving this energy daily, we are regularly entrained to a high, harmonizing, and balancing energy frequency that aids in the increase in wellbeing.

When you sign up for this program, I will be sending this energy to you as part of the group. You do not need to be aware of the energy to receive, but there is additional benefit when you tune-in to it and set your healing intention.

Benefits are cumulative over time.

Where does **LuminEssence™** come from:

LuminEssence™ is a Universal Energy that is available at any time. I call it **LuminEssence™** because it is a specific frequency that illuminates our form, bringing order and life vitality to the energy body. It enters our energy system as a double spiraling stream of white light that harmonizes and balances our energy, brings organization to our subtle energy structures, and cleanses the auric field.

When I was going through my own health crises 13 years ago, I received healing just this way. It was one of the primary tools I attribute to getting well. Not only did I receive this healing energy daily for over a year, I trained with the original channeler of this energy—Devananda Norio Kizu.

I have used this frequency in my hands-on practice for more than 10 years now, and if I have seen you as a client, you have received this energy!

Possible Benefits and Outcomes:

- * Encourages better energy balance
- * Builds resiliency in the energy system
- * Supports synchronicity in life “Support of Nature”
- * Improves peace of mind
- * Deepens spiritual practice
- * Creates better alignment with Self

Opt In/Opt Out

Subscriptions for **LuminEssence™** Energy Healing run month to month beginning on the 1st (prorated). You can tailor it to meet your needs—no lengthy commitment required.

Short term use:

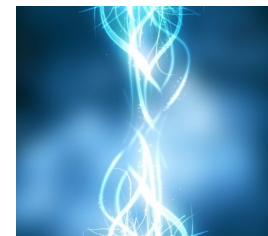

Sudden injury
Planned surgery
